

FIRST DAY

THE CAMP INVENTION DAILY

Welcome to the first day of Camp Invention!

Each day, your child is entering a place where his or her ideas matter and anything is possible! This is a safe and fun space where your child can create, test, try, fail, discover and explore the incredible world of invention. Look closely throughout the week—we're sure you'll see your child's ideas turning into reality!

Experience Camp Invention with Your Child

The **Camp Invention Daily** is a great way to experience camp from your child's perspective and continue the learning and interaction after hours. Each edition will feature Connection Questions so you can learn more about their daily adventures, as well as fun activities to enjoy at home! Be sure to pick up the new edition every day, or access the digital version on invent.org/campdaily.

THE CAMP INVENTION MODULES

MOD MY MINI MANSION™

Have you heard about socks that pause your show if you fall asleep? They're called smart socks! We found out about these and other smart inventions in a game of "Fact or Fiction." We then built our mini mansions and sketched plans to turn them into creative smart houses!

Now it's your turn to share smart house ideas with your child! If you could have a house that responds to you, what would you tell it to do?

OPTIBOT™

Today, we had a smashing good time with a mini Crash Test Dummy! We built ramps and crash tested vehicles to see how sensors are used. There are tons of sensors in the world, and they can measure things like speed, light, impact and heat.

What were your child's ideas for an ultimate futuristic vehicle?

ROBOTIC PET VET™

SOS-GPS! The robotic pets were malfunctioning and needed our help. First, we had to decode clues to find them, and then we put on our goggles to fix the dogs. We took them apart and investigated how these robotic pets work. It was like we were real veterinarians performing surgery!

Find out from your robotic pet vet what he or she liked most about today.

STICK TO IT™

We had a whale of a good time in Stick To It! It literally knocked our socks off when we made launchers to knock socks off a clothing line. We heard from the Gnarly Narwhal that no matter what the challenge is, it's important to always stick to it!

Can you think of a time where you were challenged to stick to it?

CONNECTION QUESTIONS

1. What did you discover today that you didn't know before?
2. What was a challenge you faced today? How did you overcome it?
3. Which activities did you enjoy the most?

SAFETY

Your child's safety is very important to us. When dropping off and picking up your child, you must accompany him or her into the _____ to sign them in and out each day.

CONTACT INFORMATION

THANK YOU TO OUR SPONSORS!

The Camp Invention program is made possible through the assistance of a number of organizations, businesses and individuals that believe in the importance of inspiring the next generation of innovators.
